Special Lapauw news on EXPOdetergo 2014.

Lapauw's booth

This year, EXPOdetergo will be a special fair for us, as we will be featuring some of the most innovative machines on the laundry market.

The exhibition will feature the official European premiere for the Mediwave, next-generation barrier washer, and for our latest single-operator feeder: the Starfeed+ (photo).

When visiting our stand, you can also view, for the first time, a high capacity and high speed Lapauw ironing line with a Unix 4 station, 2 lane feeder, a TurboFAN duo 1600 gas heated ironer and a Unifold folder.

And last but not least, we will also show you our unique solution for garment finishing: the Lapauw Hot STREAM.

Everybody's more than welcome to visit the Lapauw booth!
