

Dear reader,

The recent World Textile Services Congress of which we were proud event partner, has again shown the need for continuous innovation and the need to keep the total cost of ownership as low as possible. These are - not by coincidence - two of Lapauw's core strengths.

I am happy to see that only a few months after the launch of the redesigned ironers IronMAX and IronPRO at Texcare in Frankfurt, sales of these machines are going very well.

The first three-roll IronMAX is installed and running at a laundry in Europe and is living up to the high expectations for this machine. More installations of IronMAX and IronPRO are planned for the next weeks and months, about which you will hear more in our next newsletters.

Make sure to read the testimonial in this newsletter: it is an interesting showcase where Lapauw equipment is used since many years, but for once not in a textile laundry.

Best regards,

Steven Renders
CEO

Bart Stove: Lapauw representative in Benelux

For many dozens of years, Michel Deryckere has successfully represented Lapauw and its machinery on the Belgian laundry market.

In anticipation of his retirement, Michel will be succeeded by Bart Stove, who becomes the new contact person for the entire Benelux.

Dealer in the spotlight: Tellefsen

The Norwegian market is a small but highly specialized and technical market, where a local dealer is indispensable.

Since over 30 years, we have found a partner in Tellefsen.

Tellefsen, who started as a sole proprietorship that offered sales of smaller laundry machines and technical service to laundry customers, gradually developed the need to offer larger laundry equipment to customers. This way, Lapauw became a natural supplier of this equipment.

Today, Tellefsen is well known in the Norwegian market as a solid partner that offers the full range of Lapauw machinery. As with the islands ASVO laundry project, where Tellefsen took care of the laundry that incorporated a complete Lapauw stripping line, a Lapauw 300 kg washer extractor and a Trolley-Wash.

Tellefsen also made Norway one of the lead countries to adopt the Mediwave barrier washer concept.

Lapauw China - Shanghai

Jiahui International Hospital has chosen to cooperate with Lapauw China and our partner Laundrymate for the delivery of the state to the art laundry of the new hospital.

Interclean 2016

This year's International Conference INTERCLEAN 2016 was a success. Lapauw CEE was, already for the second time, a proud main partner of the INTERCLEAN 2016 Conference. Laundry managers from Czech Republic and 6 other countries from Central and Eastern Europe came to visit our booth and were impressed by the new technologies that we have developed.

New building Lapauw France

After 15 years in Epinay Sous Sénart, we are pleased to announce that the Lapauw France team has moved to their new building in Tigery, department of the Essonne.

The geographical situation, close to the N104, A6 and shopping district Carré Sénart, facilitates easy access to the site.

The new Lapauw France building is situated at the heart of a growing dynamic zone and offers more office space for our growing team and a large warehouse.

Unix: Fitted for fitted sheets

Feeding fitted sheets with an automatic feeder is a difficult task. The Unix, however, has some features that allow clamp feeding of fitted sheets. Take a closer look on the link below.
