

Dear reader,

In the past five years, Lapauw has launched its ironing, washing, garment and cleanroom solutions. These solutions added more products to the already existing top-quality range. For instance, we added conveying and folding equipment to our high-quality tunnel finisher, the HotSTREAM, to provide our customers with a total garment solution. We were however still unable to provide total laundry solutions.

Until now.

At the recent Clean Show in Las Vegas, we announced the release of the Lapauw tunnel washing solutions.

This was the missing piece and adding tunnel washers, presses and dryers to our product range is again a major step forward for our company, and - more important - for our customers worldwide. They will now be able to buy from one source the high-quality equipment that they need to run their laundries in the most efficient and economical way. After the press release, we have received a lot of enthusiastic reactions from our customers and our sales teams are excited to be able to present them the enlarged Lapauw product portfolio.

As mentioned, this is a big step forward and this is not the end. In the execution of our strategic plans, we are working on other projects and more news will come before the end of the year.

We will of course keep you informed through this newsletter and through our social media.

Best regards,

Steven.

Clean Show 2017 - Las Vegas

Two booths. This is what we needed for this year's edition of the Clean Show in Las Vegas. But then, of course, we had a lot of innovations to show, and we also had some exciting news to share. The Clean Show 2017 has been one of our busiest and most successful shows yet.

Lapauw is adding tunnel washers to its product range

Needless to say that Lapauw was the 'talk of the day' during the latest edition of the Clean Show, when we announced that we're expanding our product range with continuous batch washers. Or should we say

our range of solutions, as with the complete tunnel washing systems, we now bring total laundry solutions to our customers.

Texcare Shanghai

As we just left a successful Clean Show in Las Vegas behind us, we are already looking forward to the next show to come in another wonderful city. Shanghai will welcome us all at the Texcare exhibition that will be held from the 27th of September till the 29th of September.

texcare
ASIA

Lapauw will be very pleased to see you all over there on our booth, where we are going to show our washing solutions and ironing solutions.

Lord Linen Services - Gold Coast Australia

Michael Betts from Lord Linen Services was looking for a reliable and environmental friendly ironing line to replace his existing ironer, to meet with the demand to deliver high quality finished linen. He found the perfect solution at Lapauw.

Beyond Innovation - Lapauw HotSTREAM

The HotSTREAM tunnel finisher not only delivers the highest quality finish in the industry, this feature actually saves laundries money. In many cases, the HotSTREAM even replaces manual finishing.

Lapauw IronMAX - Customer Feedback

Our newest gas heated ironer, the IronMAX, is a success. The ironer is now in operation in various laundries throughout the world, and the feedback that we already received from our customers is very positive indeed.

Durability

As you know, Lapauw manufactures many of the parts and components in house. And you may have experienced already that we can still supply parts of machines that have many, many years on the counter.
